ABOUT US

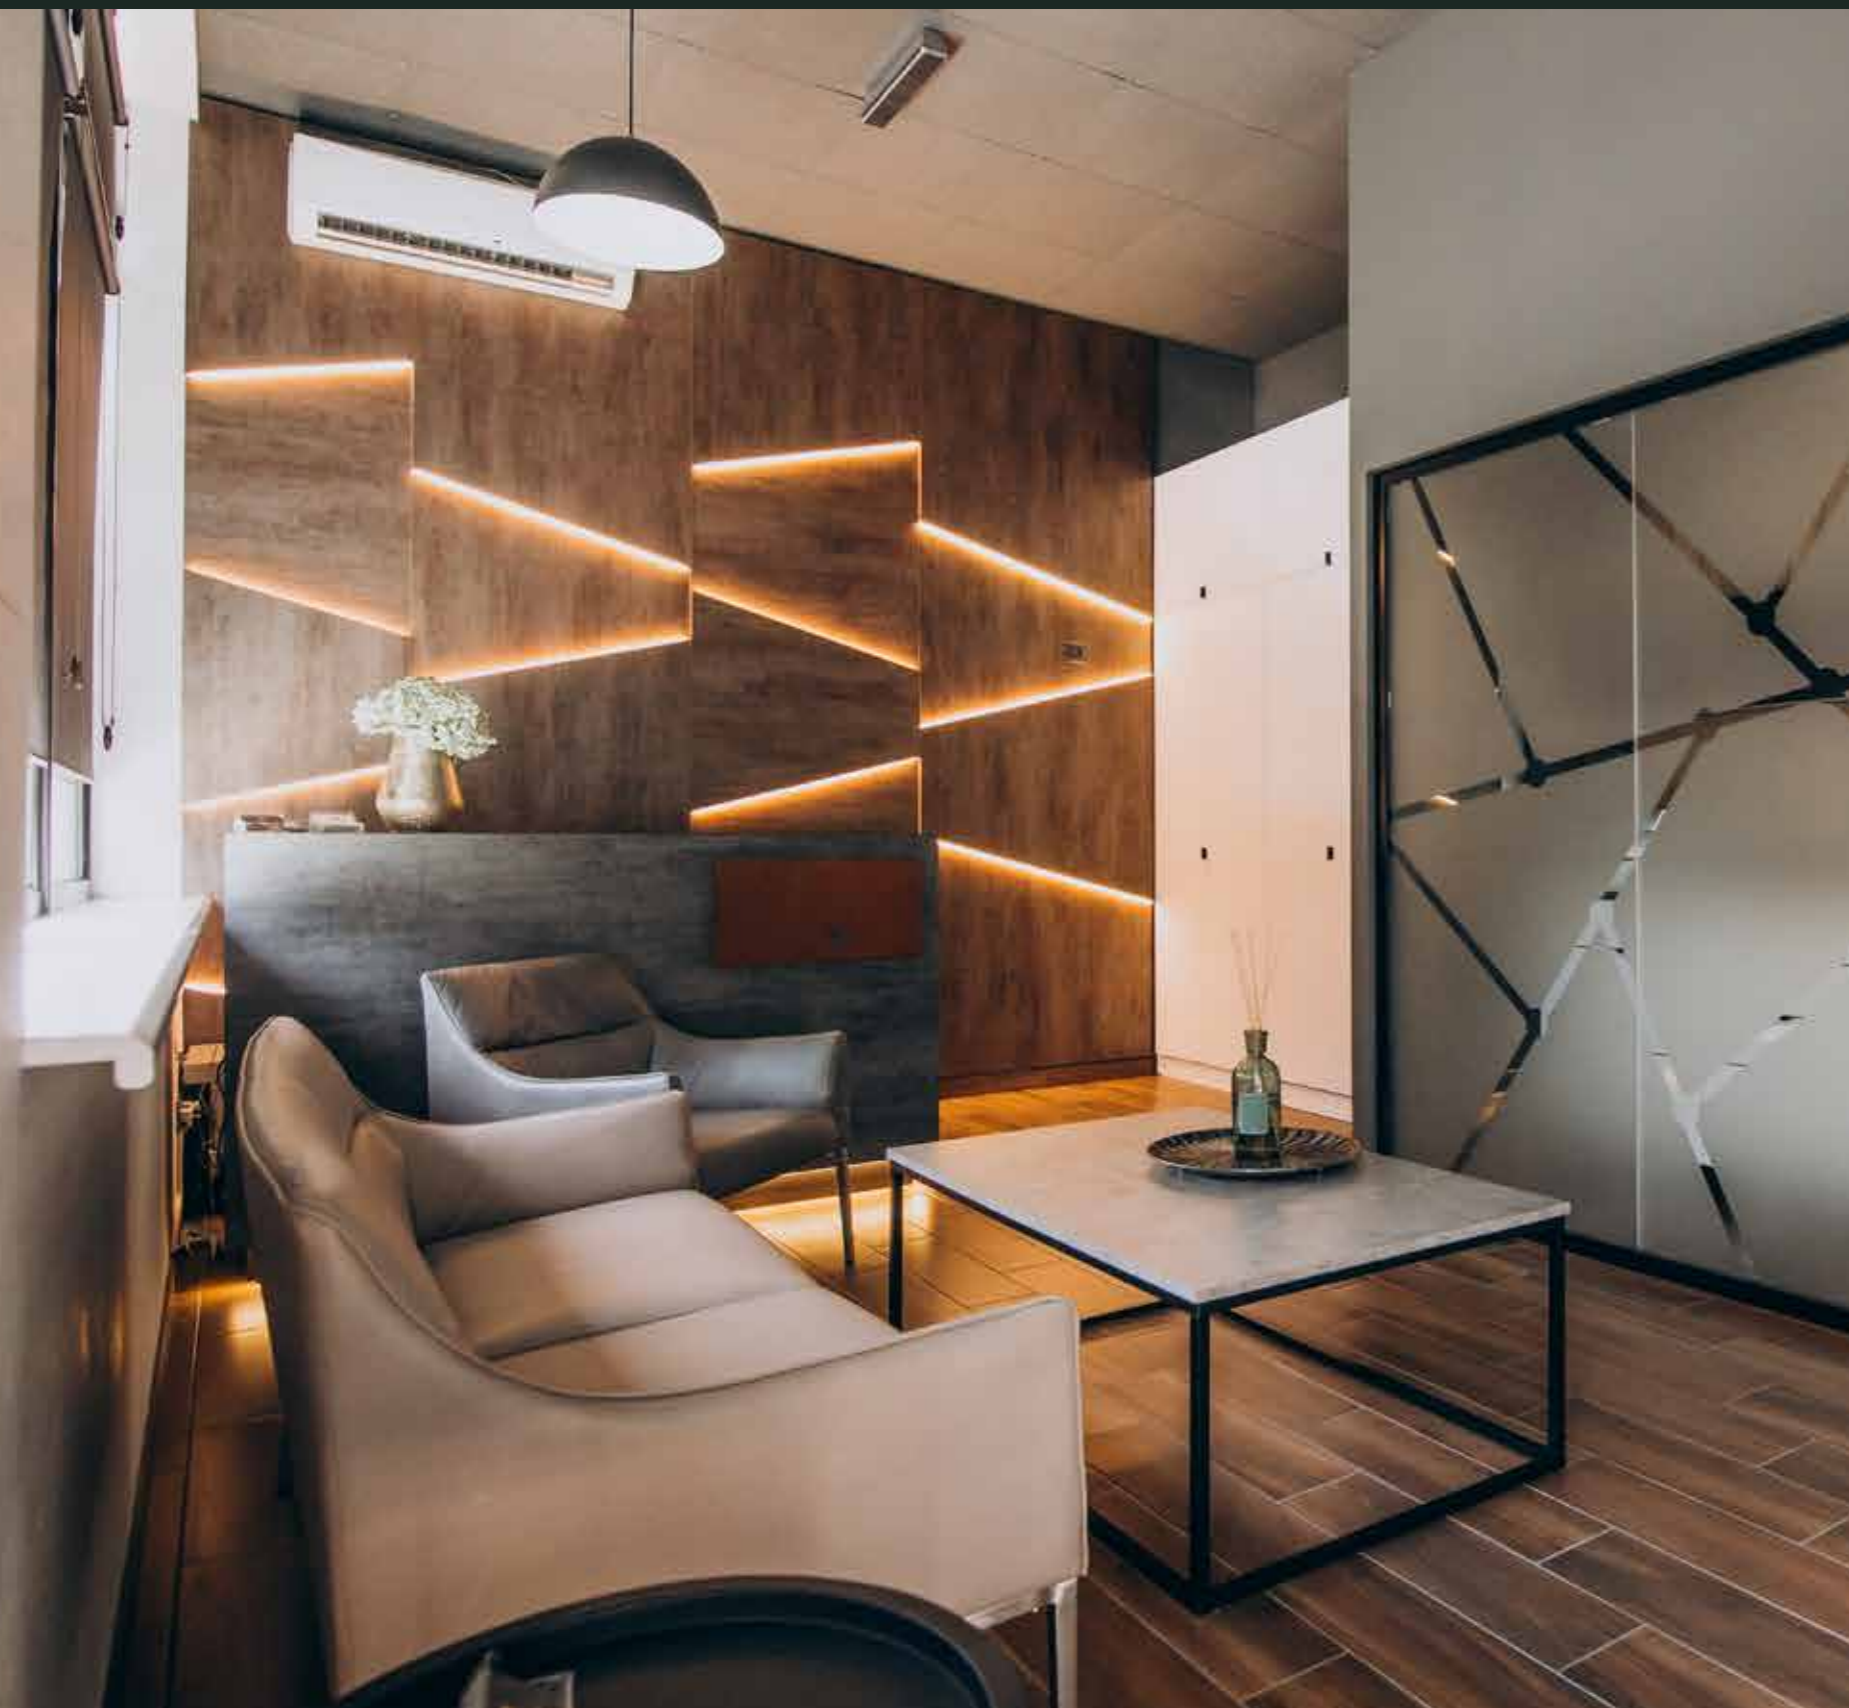

WHO ARE WE?

Sanskru Interiors has been in the interior design business for more than 10 years. We bring together functionality and aesthetics to provide homeowners with customized and efficient home designs. Our designers specialize in home interior designs and home décor and help you create a personalized home to suit your lifestyle. From sophisticated living room designs to space-saving and clutter-free interior designs, we are here to help you find the best home decor and home design to match your needs and style.

Our work is grounded on the principles of conscious design, an approach that celebrates local resources, cultural influences, keen attention to detail, and an inclusive process. We follow an iterative and incremental methodology of innovation and root our learning in history and local context. We aim to craft benchmark solutions that address society's changing ways of living and working.

We explore ways to engage the user and the way they move through the space. We like taking design to an extremely conceptual stage. We find inspiration in ordinary things, everyday events, and chance encounters. The firm takes a deeply contextual approach to its work and combines this with a strong focus on the tactile and sensory qualities of the space. Our design process looks at sustainability through multiple lenses of cultural, social, and environmental impact. There is an active engagement in integrating localized skills and resources with state-of-the-art materials and technologies.

WE CONSIDER

VASTU

SERVICES

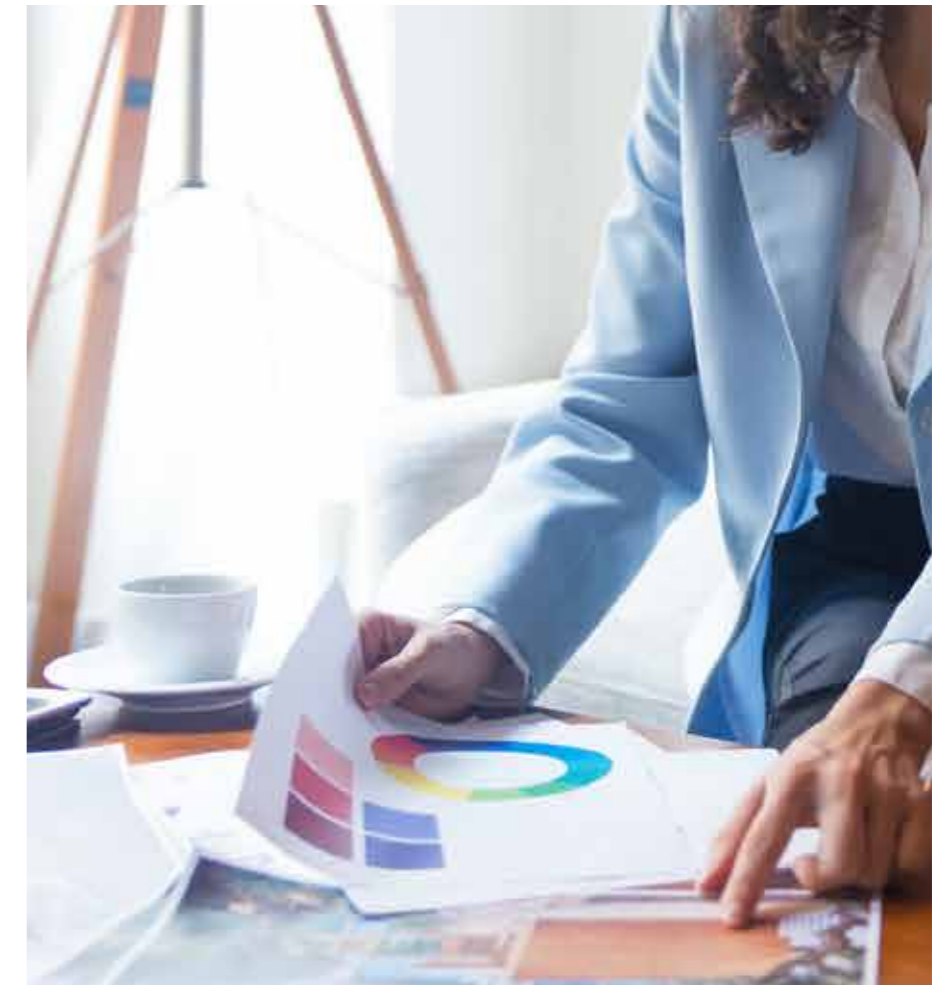

SPACE PLANNING

We will help you decide through in-depth analysis how you can fully utilize your space into a fully functioning area that would fit your needs.

3D RENDERING

To help you visualize our design ideas, we will create 3D images to provide you with a realistic presentation of the design being proposed.
